Recommendations

Critical

- Add an about page to improve E-E-A-T signals and provide more information about the company's expertise.
- Optimize H2 and H3 tags to better structure content and improve SEO.

High Priority

- Incorporate question headings to increase user engagement and potentially improve search rankings.
- Enhance schema markup with more specific types relevant to the services offered.

Medium Priority

- Consider adding more internal links to improve site navigation and distribute page authority.
- Regularly update content to keep it fresh and relevant, which can positively impact rankings.
